

## Aerial photography P R I C E L I S T:

### Photo packages include:

- An 8" x 10" or 8" x 12" photo with the best view of your location
- CD with 4 to 7 digital images from the shoot as a whole.
- Additional images can be purchased, as can additional photos of a variety of sizes.
  - 1 to 5 additional digital images – \$50.00
  - 6 to 10 additional digital images – \$85.00

Aerial photography prices are based on the area in which the target property is located. Each location is pre-scouted, as much as possible, to determine the best outcome for your product.

Prices are based on the county in which the property is located and the distance from Boeing Field, within a 25 mile radius.

To keep prices low 3 property sites are best to schedule a flight. Flights for single properties can certainly be scheduled as a solo order, but an additional fee is charged.

The following indicates rates per location, by county, with the designation "within zone" for locations within the 25 mile radius, and "beyond zone" for locations greater than 25 miles from Boeing Field. The notation "3+" indicates a flight that contains 3 or more properties, and "solo" indicates the cost for flights shooting only 1 or 2 locations. Feel free to consider teaming up with other individuals or businesses for lower rates per location.

I would be happy to contract with you for several properties, over a period of time. Contact me and we'll figure out a beneficial contract.

| COUNTY    | within zone/3+ | within zone/solo | beyond zone/3+ | beyond zone/solo |
|-----------|----------------|------------------|----------------|------------------|
| King      | 300            | 350              | 350            | 425              |
| Pierce    | 375            | 425              | 450            | 475              |
| Snohomish | 350            | 425              | 450            | 475              |
